TYPHOID CLAIMS ITS FIRST VICTIM HERE

W. Guy Thompson, aged 30 years is the first and only victim so far claimed by the dread typhus which has been so prevalent in the city during the past two months. Mr. Thompson died Saturday morning at the home of his mother, Mrs. Ursula Thompson. The funeral was held Wednesday from the Baptist church, Rev. D. E. Baker officiating. Interment was made at the Ontario cemetery.

Mr. Thompson took sick while he was bringing a bunch of sheep from Nevada to Ontario for Bob Stanfield. He was ill for ten days before he gave up and came to Ontario on October 17 and the disease had such a hold on him that medical aid could not save him.

Mr. Thompson came to Ontario

some 13 or 14 years ago with his family from Missoula, Mont., where he was born. He grew up here and engaged in business with his brother in law, Frank Zeller. He retired from the business last year and engaged in ranching near Cord. Several years ago he married Miss Virginia Carlile, of Indiana, who with his mother, a brother, George W. Thompson of California and a sister, Mrs. Frank Zeller, survive him.

WILSON BROS. STORE HAS IMPROVEMENTS

During the past week Wilson Bros. have materially increased the floor space of their grocery sales room until it has reached dimensions which make it the largest grocery store in Malheur county, and second to none in the Snake river valley.

The improvement was accomplished by setting back the partition in the store room nearly 20 feet on the east end of the building. An inter-sole was erected thru the stock room so that the storage space was not reduced by the changes. Among other changes is the addition of a raised platform for R. W. Wilson's office, near the center of the east side of the store commanding a full view of the enlarged sales room. Down the center has been erected a number of display platforms in pyramid form on which various classes of goods are shown.

From the basement to the main floor a 1500 pound elevator is to be installed in the near future which will increase the use to which the large basement can be put and at the same time expedite the handling of heavy goods.

If you can't get back to the old home for that best of all days, Christmas, a new photograph will come nearest to taking your place. It will bring cheer to the home folks. Telephone your appointment. The Burrell Studio. adv 4546 chg

DISTRICT ATTORNEY IS SHERLOCK HOLMES

District Attorney W. H. Brooke is being congratulated by his friends on his ability to locate persons against whom he issues complaints. His latest successful venture in the role of Sherlock Holmes has a peculiar turn for the hunted person came right to Mr. Brooke's home and literally walked into the arms of the law. The story runs something like this:

Several months ago a young Hollander from the lower end of the county appeared in Mr. Brooke's office seeking a warrant for the arrest of his wife, and a neighbor whom he alleged had stolen her affections, and with whom she had eloped. The warrant was issued but no return was made. The man and woman could not be found.

Last week a woman appeared at the Brooke home seeking work as a domestic and was employed. She said that her suit case would be brought up in the evening. On his return home that evening Mr. Brooke

domestic and in a few minutes a man arrived with the suit case, and he introduced himself. Instantly Mr. Brooke remembered the name, given in the warrant issued months ago, and placed the couple under arrest. Of course there is a job for a domestic at the Brooke home now. But there is happiness in the home below Nyssa for on the advice of the district attorney the irate husband took his wife back and the stranger went his way.

BUY IT "MADE-IN-AMERICA"
Whether a man is a republican or a democrat, whether he believes in a high protective tariff or in free trade, he can help the "American First" movement by insisting upon having goods that bear the brand "Made-in-America." Of course, the man who, advocates a protective tariff doubly helps the "Made-in-America" policy because he not only proposes to buy American goods for himself but proposes to compel his neighbor to do likewise.

If the Adamson bill were to be voted upon again with the election past instead of coming, the result would probably be considerably different.

Thanksgiving Table Linen

The time is here for Thanksgiving Day. We think of the great Thanksgiving Dinners of the past, with father at one end of the table and mother at the other, the children between, wondering if father would ever get through carving the turkey, savory odors, mince and pumpkin pies and all the memories bring the good old days back.

Thanksgiving is with us once more and the LINENS are as much a part of that day's feast as the feast itself. Good Linens have been hard to get, but Raders have them, and lots of them. We've had our linen for some time put away awaiting this feast. We foresaw the coming condition of the linen market and the result is Plenty of Good Linen at Raders for Thanksgiving and Christmas.
